

COMPANY PROFILE

OVERVIEW

Our trading Platform is designed to meet the demanding needs of trading investors looking for maximum performance, reliability and total data safety.

We have ambitious plans to implement a wide range of investment programs and products, as well as several activities related to training and mentoring in finance

Create a diversified investment portfolio, with a variety of hundreds of financial instruments to choose from. Trade and invest in top financial instruments, including a wide selection of stocks. Enjoy near-instant execution of market orders and no daily withdrawal limits. Invest in various markets on an intuitive trading platform.

We believe in the power of disruption and the importance of decentralization to create a new system that acts in the best interest of everyone. Each member of our team brings something unique and innovative to the table, but the common thread that links us together is our passion for the equity markets, blockchain, equality, and leading the next financial revolution that changes the equation to bring power back to the people.

Choose among a wide variety of Currencies, Cash Indices, Cash Equities, major digital assets, ETFS & cryptocurrencies, including Bitcoin, Ethereum, EOS, Litecoin, Ripple, NEO, Monero, Energies and Oil – all from a single account.

At Globally Paid Investments, sustainability is a core investment conviction. As the race to net zero accelerates and action to preserve the world's vital natural capital intensifies, we believe that investors with the skills to adapt will capture new growth opportunities and avoid emerging risks

Invest in the digital asset economy with complete trust. Invest here and be rest assured of investment portfolio security, fast and accurate payout as withdrawals and all other transactions in the Globally Paid Investments Services are automatically regulated and processed respectively.

Our expertise ensures successful, easy, fast, secure, and cost-effective connectivity to the world's largest global market. Globally Paid Investments is dedicated to advancing the community. platform provides members with curated services unavailable through traditional institutions.

Our goal is to act as a catalyst for financial disruption on a global scale by offering services that will bring the next 100 million people into general financial markets system.

Our clients believe in the value of digital assets to create new business opportunities and transform the financial industry.

They want the security provided by a regulated digital trading and investment bank, and the tech-driven innovation and agility of a global digital asset specialist.

At Globally Paid Investments, we empower institutional and private qualified investors, corporates, banks and other financial institutions to invest in the emerging digital asset economy with complete trust.

We call the emergence of a trusted, secure and efficient digital asset economy Future Finance (FF). Every day, our team of digital asset experts are working towards Future Finance by leveraging the advantages of DLT to serve our clients with innovative products and services.

Distributed Ledger Technology (DLT) refers to the technological infrastructure and protocols that allows simultaneous access, validation, and record updating in an immutable manner across a network that's spread across multiple entities or locations.

We strive towards transforming the financial industry by realising the potential of DLT, and through this to help create a world where people have more control, freedom and direct access to ownership and value of how they invest, trade, earn and ROI respectively as all transactions in the system including deposits, withdrawals and all other transactions provided in the company platform website.

Our Purpose

This means supporting our colleagues, customers and clients, and the communities and environment in which they operate, for the benefit of all our stakeholders. It means helping people and businesses unlock their potential and plan for the future with confidence, building relationships that stand the test of time. And it means that we continue to be there for the long-term, whatever the climate, making decisions that are right for today and for generations to come.

To achieve this, our long-term strategic approach place exceptional service at the heart of everything we do. Each of our diverse, specialist businesses have a deep industry knowledge, so they can understand the challenges and opportunities that our customers and clients face. We support the unique needs of our customers and clients to ensure that they thrive, rather than simply survive, whatever the market conditions.

We believe in putting our customers and clients first. Our cultural attributes bring out the very best of our people, skills and strong reputation that we have built with our stakeholders over many years. A combination of expertise, service and relationships with teamwork, integrity and prudence underpins our approach and gives us the tools to thrive over the long term.

And we recognise that to help the people and businesses of Britain thrive, we also have a responsibility to help address the social, economic and environmental challenges facing our business, employees and clients, now and into the future.

What is Responsible Investing

At Globally Paid invest, we define responsible investing (RI) as an investment process that incorporates environmental, social and governance (ESG) factors into its approach. RI enables clients to align their investments with global megatrends that are changing the investment landscape. Issues such as increasing regulation, the growing need for risk mitigation and a heightened social conscience can be more effectively addressed by integrating ESG factors into the investment process.

Why is responsible investing important?

ESG can allow firms to foster a meaningful change in the global economy, and in the communities in which we live and work. We believe that ESG analysis leads to more effective investment solutions that address global challenges and create sustainable value for our clients.

The integration of ESG factors is used to enhance traditional financial analysis by identifying potential risks and opportunities beyond technical valuations, providing data on issues such as potential reputational risk or identifying firms which are adapting to meet new market challenges. It is important to note that the main objective of ESG integration remains financial performance..

Our sustainability principles:

- We will consider sustainability and ESG factors when determining our corporate strategy and new business initiatives.
- We will embed sustainability considerations throughout our business.
- We aspire to be a thought leader, to innovate, and to advance understanding of sustainability issues.
- We believe in active asset ownership and management which encourages companies to transition towards a sustainable future.
- We consider the interests of all our stakeholders and ensure our views on sustainability are consistent with our longterm approach.
- We will manage our businesses to the same principles of acting responsibly that we hold our investee companies to account on.
- We review our sustainability thinking regularly in order to align with scientific and technological improvements, and changes in the global economy, ethics and consumer preferences.
- We aim to use our influence as a global investor and asset owner to drive positive change in sustainability policy and corporate standards.
